Named by the Board of directors of the Southwest Association for Retarded Children to complete the unexpired term of President Al Schild is Mrs. Dean Thurman, of 13636 1/2 Lemoli, Hawthorne.

Mrs. Thurman has been a member of the group since its inception five years ago, and has served as treasurer.

In addition to her wide participation in SARC activities, Mrs. Thurman is immediate past-president of the Columbia School PTA.

Replacing Mrs. Thurman as treasurer is Alex Slater, Certified Public Accountant.

Of her new office, Mrs. Thurman says, "We are entering a time of progress in our services to the retarded of the Centinela-South Bay area, and the next year promises to be exciting. With state and national interest turned to the problems of the retarded, we look forward to ever-increasing services."

Services to the retarded

in the eleven cities served by the association now include a pre-school class, which offers a qualified teacher for children between three and seven years of age. This group meets twice weekly at Lennox Park, Lennox Blvd. and Condon Ave.

Registration will take place on Wednesday morning, Sept. 18 at 10 a.m., according to program coordinator Mrs. Thomas Campbell.

Other services of the Southwest Association include Boy and Girl Scout troops, friendship parties for older retardates and recreation and activity programs. A speaker's bureau has been formed by Mrs. Robert Schaeffer director of public relations.

Persons desiring more information about the association and its programs may write to the Southwest Association for Retarded Children, P. O. Box 494, Torrance, or phone Mrs. Campbell at DA 6-7558.

THE OLD GRAND THEATER rocked and rolled last week when the Torrance Peace Officers Association sponsored a battle of the surf bands. Five of the best surf groups in the South Bay area came to battle for a shiny bronze trophy. While the bands played

the teenagers, who came from all over town, danced. At the end of the evening the winning band, the Persuaders Dance Band was picked by a panel of disc jockeys from a local radio station.

A FOOT BATH is given as a treatment for a number of conditions. Before giving one, test

hat water in a basin with your hand. Then have patient immerse the foot or feet into water. Time the treatment to avoid prolonged heat.

Sometimes a contrast bath is ordered. This consists of changing from warm to cool water or hot to cold for a specific time. The treatment begins and ends with the warm or hot water.

A SITZ BATH is a hot bath in a sitting position with the water usually at waist level unless otherwise ordered. The word Sitz is a German word meaning "sit."

The simplest kind of a Sitz Bath is taken in the bath tub. This type of therapy relieves certain pelvic or perineal conditions.

Fill tub to appropriate level; test temperature of water with your hands, and stir to even temperature. Assist patient into tub and remain during treatment. If

patient feels weak remove stopper to release water, supporting him with your other arm.

When a patient is permitted to take bath unassisted leave a bell within reach, and time treatment so bath is not prolonged.

A TEPID OR COOL SPONGE BATH may be ordered for a patient with a high temperature. This type of treatment is given to relieve the discomfort and may reduce temperature.

Basic procedure consists of:

1. Take temperature before starting procedure.
2. Protect bed.
3. Sponge and dry face.
4. When sponging the body uncover one part at a time to avoid chilling.
5. Change water as needed to maintain desired temperature.
6. Check pulse occasionally and observe color of patient during prescribed time of treatment. (Discontinue treatment if there is an increased pulse rate, shivering, or bluish color to the lips or nails).
7. Take temperature 20 to 30 minutes after treatment to compare with previous temperature.
